This profile last updated on 14 September 2016

# Atlantic cod W Greenland inshore

 Fishery:  W Greenland inshore  Greenland 1A-E inshore  Greenland  Gillnets and entangling nets

**IDENTIFICATION**

**SCIENTIFIC NAME**
*Gadus morhua*
**SPECIES NAME(S)**

Atlantic cod

**COMMON NAMES**

Greenland cod, West Greenland fjords cod

**STOCK IDENTIFICATION**

The inshore Greenland cod component was assessed together with the offshore cod stocks prior to 2012. However, multiple stocks are thought to contribute to the fishery in this region: south and east Greenland cod, offshore west Greenland cod and Icelandic cod, and methods for separating catch origin are being developed (ICES, 2015).

**RECOMMENDATIONS**
**RETAILERS & SUPPLY CHAIN**

- Start a fishery improvement project (FIP) to address the lack of publicly available information on this fishery. For advice on starting a FIP, see SFP's Seafood Industry Guide to FIPs and other resources at <https://www.sustainablefish.org/Programs/Professional-Guidance/FIP-Toolkit-Resources>.
- Encourage scientists to share their studies/publications with FishSource by commenting on the profile and uploading a hyperlink to the document.
- Work with the government and scientists on the collection of data and make them accessible online.
