Fisheries

Within FishSource, the term "fishery" is used to indicate each unique combination of a flag country with a fishing gear, operating within a particular management unit, upon a resource. That resource may have a known biological stock structure and/or may be assessed at another level for practical or jurisdictional reasons. A fishery is the finest scale of resolution captured in FishSource profiles, as it is generally the scale at which sustainability can most fairly and practically be evaluated.

 MANAGEMENT UNIT	 FLAG COUNTRY	 FISHING GEAR
India	India	Single boat bottom otter trawls

Management Unit

 MANAGEMENT UNIT	ORGANIZATION	FISHING AREA
India	Indian Department of Animal Husbandry, Dairying and Fisheries (DADF)	FAO 51.4, FAO 57.1
