

# Giant jackknife Ancud Bay

## IDENTIFICATION

SCIENTIFIC NAME

*Ensis macha*

SPECIES NAME(S)

Giant jackknife, Razor clam

STOCK IDENTIFICATION

The stock structure is unknown (*Hernández et al. 2011*), but the main banks of Giant jackknife in Ancud Bay (northern Chilean Region Los Lagos; previously X) are assessed (*Techeira et al. 2018*). Other giant jackknife assessment units exist in Chile: [Corral Bay](#), [Arauco Gulf](#), and catches are significant in [Magallanes](#) management unit.

### MSC

No related MSC fisheries

## Fisheries

Within FishSource, the term "fishery" is used to indicate each unique combination of a flag country with a fishing gear, operating within a particular management unit, upon a resource. That resource may have a known biological stock structure and/or may be assessed at another level for practical or jurisdictional reasons. A fishery is the finest scale of resolution captured in FishSource profiles, as it is generally the scale at which sustainability can most fairly and practically be evaluated.

 ASSESSMENT UNIT	 MANAGEMENT UNIT	 FLAG COUNTRY	 FISHING GEAR
Ancud Baymng	Los Lagos Region Ancud Bay - Artisanal	Chile	Hand implements

## Management Unit
